Translator, The Tor Project

Cyberspace

- Assisted in translating the Tor Onion Browser and other supplementary documentation and guides into Norwegian (Bokmål).

Feb 2019 — May 2020

Member, Ethereum Specification Team

Cyberspace

- The Ethereum Specification Team was a working group that branched out from the Fellowship of Ethereum Magicians, an online Ethereum community.
- The goal of the team was to properly maintain the official Ethereum Specifications (mainly the Yellow Paper and Brown Paper).
- Gained deep understanding of the Ethereum protocol, as well as experience working remotely in a team.

HOBBIES

In my spare time, I enjoy writing automation code, investing in stocks and digital assets, and teaching myself machine learning. I am also a PADI Certified Open-Water Diver and pursue various water sports during the summer. In the winter I enjoy downhill slalom skiing.
